LIGHTING

ARIZE™ LYNK GE LED GROW LIGHTS

Help your indoor farming boom with the use of ARIZE™ Lynk. A uniquely designed LED growing system that can be used in growth chambers and rooms, greenhouses, hydroponic, aquaponic and aeroponic operations, as well as vertical farms, ARIZE™ Lynk is a LED system designed to facilitate indoor farming by providing the most suitable spectrum of light. The ARIZE™ Lynk product can be easily installed and daisy chained from end to end to reduce costs and time.

ARIZE™ LIFE GE LED GROW LIGHTS

A LED growing system to flourish tissue cultures or in growth chambers; ARIZE™ Life is a fluorescent replacement with all the benefits of LED technology including longer product life, energy savings, and lower maintenance while providing optimal colors on the spectrum for plant growth. The ARIZE™ Life products can be easily mounted and daisy chained from end to end to help reduce installation costs and time.

CONTROLLED ENVIRONMENT TECHNOLOGY

THE GROWRACK BY GREENTECH AGRO

The Growrack™ is a proprietary, self-contained stainless steel rack system which can contain any number of vertical production and propagation levels. The number of levels is determined by the height requirements of the crop being produced. Each level of the 6' to 8' tall modular Growrack™ rack system contains an appropriate number of crop-specific LED fixtures.

Size: 60" X 24" X 72"
Height adjustable up to 96"

SUBSTRATES

HORT AMERICAS ORGANIC PLUGS BY RIOCOCO (CBOP)

Hort Americas' CBOP, OMRI certified, is a starter plug made of compressed coco that offers both a Sustainable and Organic start to your crop. These plugs are made up of high quality Sri Lankan coco and wrapped in a biodegradable mesh which allows for a very rapid and low mess expansion, while at the same time offering optimal water holding and root penetration. Start your crops off right in the new Hort Americas Closed Bottom Organic Plugs!

FERTILIZERS

HORT AMERICAS HYDROPONIC FERTILIZER

Hort Americas Hydroponic Fertilizer is specially formulated for growing leafy greens, culinary herbs, microgreens and other crops in a hydroponic system. Hort Americas has designed this water soluble fertilizer to deliver the essential nutrients for optimum uptake by the root system. It can be used as a constant feed or as a supplement. Hort Americas recommends that the grower have their source water tested by a professional water analysis laboratory to determine the nutrients, pH, EC and total alkalinity.

TERRA GENESIS

Terra Genesis is a revolutionary product, that can completely replace your conventional hydroponic fertilizer program. Terra Genesis was developed for Recirculating NFT (Nutrient Film Technique) crops such as lettuce, basil and other leafy greens and herbs. After further testing and success, Terra Genesis quickly proved itself to be an adequate hydroponic nutrient for nearly all crops without any additives.
