

THE GROWRACK™

THE GROWRACK™ FROM GREENTECH AGRO, MAKERS OF GROWTAINERS™

The GrowRack™ is a proprietary, self-contained stainless steel rack system which can contain any number of vertical production and propagation levels. The number of levels is determined by the height requirements of the crop being produced. Each level of the 6' to 7.5' tall modular GrowRack™ rack system contains an appropriate number of crop-specific LED fixtures. By combining these custom wavelength combinations, the LED lights in the GrowRack™ can virtually alter the photosynthesis and/or photomorphogenesis response allowing controllable, predictable and more robust growth, resulting in higher yields in a shorter period of time than conventional production methods.

SIZE

60" X 24" X 72"

Height adjustable up to 96"

Available in:

6 ft tall – 2 tier system \$2,757.80

6 ft tall - 3 tier system. \$3,706.38

7.5 ft tall – 3 tier system. \$3,706.38

7.5ft tall – 4 tier system \$4,652.94

DETAILS

Built in trays with knock outs for irrigation and/or drainage

Mounted on a heavy frame with wheels

Heavy duty Bottom shelf for water tank

Holes predrilled every 1" for easy lighting installation

Each level holds 5 10" X 20" Trays

Pump

40 Gallon Tank

Up to 4 growing levels with 3 LED Lights per growing level

The GrowRack™ can be purchased fully assembled or you can purchase and assemble yourself with easy to follow instructions and pre-built plumbing sections.

Complete kit can be purchased with GE Horticultural LED or Ohmax LED Bars.
